---

Software developer, passionate about creating applications with quality code, a beautiful user interface, and fluid user experience designs. Motivated by the unknown to continuously expand my knowledge about front and back end development.

### TECHNICAL SKILLS

**Languages:** Javascript, HTML, CSS

**Skills and Tools:** React, Vue, Express, Node, Git, Github, AWS, Heroku, SQL, Auth0, MongoDB, Netlify, Jest, Supertest, Sequelize, Postgres, Bootstrap, MaterialUI, TailwindCSS

### PROJECTS

Tech Perspective, May 2022 - <https://tech-perspective-301d85.netlify.app/>

- Created an authentication, multi-survey based application to gather student inclusion data, implementing the chart.js library allowing staff to immediately interpret the results
- Overhauled the backend express server, implemented a data schema to keep the data consistent and scalable across the application, and allowing multiple survey and user access simultaneously
- Optimized the existing external API calls directly improving performance and the efficiency of network requests
- Built with MongoDB, Express, React, Node, Auth0, Bootstrap, Heroku, Netlify

Yelp Clone, Feb 2022 - <https://github.com/Cozhee/yelplike-clone>

- Engineered a user and restaurant experience application, adding reviews between authenticated or anonymous users, with the ability to add new restaurants for review providing users with price range and overall experience data.
- Implemented relational data from users, restaurants, and posts to maintain a dynamic scalable database
- Built with Vue.js, Express, Node, Postgres, Bootstrap

Halo Infinite Stats, Dec 2021 - <https://github.com/Cozhee/Halo-Infinite-Stats>

- Developed the search functionality for individual player stats based on the selected competitive season, providing feedback on personal improvement
- Incorporated fluid UI design to update based on the search filter, displaying the users ranked playlist rank, and additional individual player statistics
- Built with Vue.js, Bootstrap

### EXPERIENCE

**Aviation Maintenance Administrationman(AZ)**

United States Navy, 2013-2019

### EDUCATION

**Advanced Javascript**

Code Fellows coding bootcamp, 2022
